It is seen that the area of Kansas is nineteen thousand square miles greater than that of all New England, New York, and New Jersey; and that the area of Nebraska is ninety-five thousand niles greater than that of all the non slaveholding clatter except California. Oregon is nearly equal in extent to all New England, New York, Pennsylvania, Ohio, and Indiana. It is possible that New Mexico and Mesilia will be embraced in one territorial organization by Congress at the present season, containing 288,000 aquare miles—exceeding all New England, New York, Pennsylvania, Ohio, Indiana, and Illinois. Washington exceeds in extent all New England and New York.
